

# AcelleSend Admin & Marketer Module Guide

This document provides a developer-oriented overview of the major modules available in the Admin and Marketer (Customer) panels of AcelleSend, based on the official product structure and the URLs you shared.

## Admin Panel Overview

**Main responsibility:** Configure and manage the entire email marketing platform.

Core modules include:

- Dashboard
- Customers (create/manage customers, quotas, login as customer)
- Subscriptions (customer subscription lifecycle)
- Plans (features, limits, pricing)
- Roles (admin permissions/RBAC)
- Admins/Admin Groups
- Sending Servers
- Sending Domains
- Bounce Handlers
- Feedback Loops
- Verification Servers
- Warm-up Strategies
- Email Verification Plans
- Sending Credit Plans
- Payment Gateways
- Currencies
- Coupons
- Templates (Email/Page/Form)
- AI modules, Languages, System Pages, General Settings, Logs, etc.

## Admin Flow

Platform Setup → Payment Gateway → Plans → Customer Creation → Subscription → Customer Uses Platform → Campaign → Sending Server → Delivery → Reports

## Customer / Marketer Panel Overview

**Main responsibility:** Run marketing campaigns.

Typical menus:

Dashboard, Campaigns, Automations, Audiences (Lists, Subscribers, Segments, Forms), Templates, Sending (Servers, Domains, Verification Servers, Blacklist), Websites (tracking), Reports, Account (Profile, API), Billing/Subscription.

## Marketer Flow

Create List → Import Subscribers → Verify → Segment → Create Template → Create Campaign/Automation → Queue → Sending Server → Delivery → Opens/Clicks → Reports → Website Events → Re-engagement Automation

## Recently Shared Admin Modules

**Customers:** Manage customer accounts, quotas, impersonation.

**Subscriptions:** Active/expired plans, renewals, billing status.

**Roles:** Permission management for admin users.

**Plans:** Subscription plans and feature limits.

**Currencies:** Currency configuration for billing.

**Payment Gateways:** Stripe, PayPal, Razorpay and other payment integrations.

**Sending Credit Plans:** Purchase-based email credits.

**Email Verification Plans:** Sell verification credits to customers.

**Coupons:** Promotional discounts for plans.

## High-Level Comparison

**Admin:** Manages the platform, billing, customers, infrastructure, permissions and global settings.

**Marketer:** Manages subscribers, campaigns, automations, templates, websites, reports and integrations.

## Note

The authenticated demo pages cannot be directly inspected from here. This guide is based on the official Acelle feature set and the module URLs you provided. A full 100+ page developer manual can be produced module-by-module with database schema, MVC flow, controllers, routes, queues and relationships for every menu.
